

CRNA Opportunity – Kansas City

Excellent Work-Life Balance

We understand everyone is in a unique stage in life, and we are proud to offer scheduling options to fit your needs. Apart from a healthy work life balance we also offer many other benefits including:

- Sign on bonus (including early stipend for SRNAs)
- Generous salary with yearly market adjustments
- Minimal call due CRNA group size
- CEU reimbursement with time off
- Generous PTO package
- Longstanding history of shift work including 8-, 10-, and 12-hour shifts
- Extra shift opportunities (voluntary, not mandatory)
- Reward for experienced applicant's years of practice
- OB and CV positions available
- Case mix of urology, general surgery, surgical oncology, ENT, neurosurgery, OBGYN, trauma, peds, plastics, GI, and bariatrics among others
- CRNA leadership team consisting of a Chief, 2 Assistant Chiefs, Educator, and 6 Lead CRNAs
- Nationally ranked in 8 adult specialties by US News and World Reports, and regionally ranked as the #1 hospital in Kansas for 13 consecutive years.
- Opportunity to work at our 39th and Rainbow campus or ambulatory centers

Working as a CRNA at the #1 hospital in Kansas (for the 13th consecutive year*) means you get to care for our region's most complex patients undergoing advanced procedures. As our health system expands to include new locations and surgical specialties you will be able to learn and grow as a CRNA. Beyond providing excellent anesthesia care in our operating rooms, there are many opportunities to advance your career through leadership

opportunities and precepting the health system's SRNAs.

Apart from the opportunities you have to grow professionally as a CRNA, one of the best parts of working at The University of Kansas Health System is the sense of community our team has built. Through planned department outings, and informal social gatherings, our team stays close and involved in each other's lives. Despite having over 100 CRNA's our team routinely ranks workplace relationships as a top reason they choose to work at The University of Kansas Health System.

*Per US News and World Reports

Why Kansas City?

Kansas City is the Midwest's best kept secret. Our city is home to a bustling food scene with upscale eateries, gastropubs, as well as our famous BBQ. And while we're talking food, we can't forget to mention the number of breweries (like Boulevard Brewery) and wineries our region hosts. If food and drink isn't your thing our art and entertainment districts have you covered with our T-Mobile Center, Nelson Atkins Museum, and Kauffman Center. Lastly, we can't talk about Kansas City without mentioning sports. We are home to the 2022 Superbowl Champions the Kansas City Chiefs, as well as the Royals, Sporting KC, KC Current, and college teams KU, K-State, and Mizzou.

If the city life isn't your style don't worry, our suburbs are sure to win you over. Overland Park, Kansas consistently ranks among the best places to live (#5 this year according to Livability), and Prairie Village, Kansas (just South of the city) was Zillow's Most Popular City of 2022. Known for abundant parks, walking/biking trails, and unique shopping and dining districts, our suburbs make KC shine.

Apart from the wonderful amenities our city and suburbs offer, residents love KC for it's ease of living. Traffic is scarce, cost of living is low, the city is clean, and while we get all 4 seasons our winters are mild and there is always a sunny day in the forecast.
